

Jobsite Safety and Protection

FTLS

Part of the WORKSAFE™ family of products

Overview:

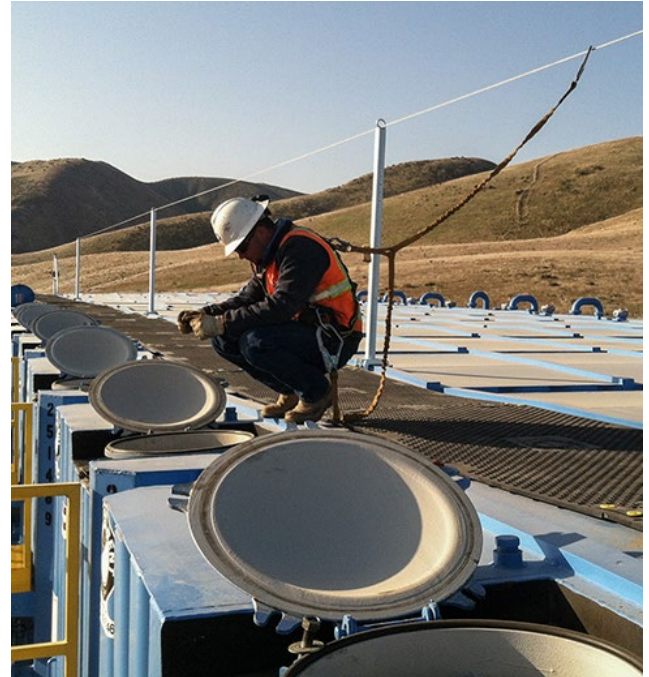

When work needs to be performed on top of a flat-top or bi-level frac tanks, OSHA compliant fall protection must be in place before personnel are allowed on top of the tank.

Features:

- The Frac Tank Lifeline System (FTLS) is a fall-restraint lifeline system.
- Lanyards attached to the lifeline prevent personnel from falling over an unprotected edge.
- Additional gap precautions can be met with the addition of walkway bridges.
- Meets OSHA regulations.
- Protects multiple workers.
- Reduces lost time and cost due to injuries on the job.
- Creates safe walkways on tanks.
- FTLS applications include: Tank Inspections, Instrumentation Installation, Tank Cleaning, Tank Gauging, Safe Operation of Tank Top Manifolds

Specs:

- Multiple stanchions with supports.
- Tie-off anchorage clamp.
- Horizontal lifeline components (cable, ratchet, attachment hardware).
- Three body harnesses for workers.
- FTLS-40 supports 4 to 40 tanks.
- FTLS-10 supports 4 to 10 tanks.

Accessories:

- Spillguards
- SolidGround™ Traction Mats
- Steel Tanks

PUMPS • TANKS • FILTRATION • PIPE • SPILLGUARDS
