

Hydroblast Pad

Overview:

Use the Hydroblast Pad to contain liquids and sludges generated by equipment hydroblasting. Also used for leak protection for short or long-term storage.

Features:

- The 30' x 50' containment Hydroblast Pad features a chemical-resistant polyurethane fabric.
- One-piece heat-welded design
- Easy-tie grommets
- Puncture-resistant ground and equipment mats.
- Double or triple your blast pad capacity next to your existing unit.

Specs:

- 30' x 50'

Accessories:

- Modular spillguards to run under pipeline
- Puncture resistant track belts
- Puncture-resistant ground mats
- SolidGround™ Traction Mats
- Create reusable blast water system when you combine the SprayGuard with Rain for Rent pumps, filtration and tanks. Closed-loop filtration systems available.

PUMPS • TANKS • FILTRATION • PIPE • SPILLGUARDS
