

SoundSentry®

Sound Dampening Curtain

Overview:

SoundSentry® Curtains provide temporary and portable sound attenuation via the modular 4' x 4' sound dampening curtains. The curtains are attached to standard scaffolding and can be scaled to the size of any pump or mechanical equipment in need of sound dampening.

Features:

- Open Top - No confined space permitting required
- Easily assembled by hand zip-to-tie mounting standard
- Reduces sound pollution from mechanical engines, compressors, generators, welders, pumps, vacuum pumps
- Modular design allows sound dampening for any sized equipment
- Widely used to reduce noise pollution for pumping and construction projects near residential areas

Specs:

- Modular Sound Curtain Pieces: 4' square panels

Accessories:

- SolidGround™ Traction Mats for stability in muddy conditions
- SpillGuards to protect sensitive environments from drips

PUMPS • TANKS • FILTRATION • PIPE • SPILLGUARDS
