

# Spillguard

## E-CONTAIN® Modular

### Overview:

Modular Spillguards provide a safe and easy solution for secondary containment to help prevent costly incidents. The portable, lightweight, polyurethane Spillguards are puncture resistant and come with Rigid-Lock supports. The E-CONTAIN® Spillguard features safety improvements, space savings, ease and reduced clean-up costs. The E-CONTAIN® Spillguard is also lighter and easier to maintain, deploy and repair. The cost effective way to provide containment for large sites. Ideal job applications for the Modular Spillguard include: Drilling pads, Hydroblasting areas, Sandblasting, Decontamination sites.

### Features:

- Heavy duty liner is deployed, the reusable rigid walls are placed around the perimeter and attached to the liner with zip-ties
- More durable than geotextile or polyethylene
- No inside or outside support straps, which decreases tripping hazards and strap damage from vehicle drive-over
- Smaller footprint
- Easy to clean and repair damaged supports in the field
- Strong wind resistance
- Puncture resistant track belts and ground mats come standard with each E-CONTAIN® Modular Spillguard

### Specs:

- Modular walls come in 20-foot-long wall sections and 5-foot-long corner sections
- Requires coverage of a minimum 50' x 50' space
- Available Liner Material:
  - Heavy Duty PolyChem - 4 Vinyl Coated Liner
  - Medium Duty PolyChem - 3 Vinyl Coated Liner
