

Steel Tank

240-BBL Open Top Tank

Overview:

Store liquids with confidence with Rain for Rent's Steel 240-BBL Open Top Tank. Permanently attached axles, for maximum maneuverability, allows this tank to be moved with ease on the jobsite. The tank is designed to hold 18-lb. drilling mud. The open top design has no crossbars, which allows easy access and removal of built up solids quickly. The tank offers a smooth wall internal epoxy coating for easy wash and with large clean out drain.

Features:

- Holds 18 lb. drilling mud – 2.25 Specific Gravity
- No crossbars allows for easy and quick removal of solids
- Smooth wall interior
- Internally epoxy coated with Carboline Phenoline 310
- Standard V-drain floor with front 6" 150# flanged drain with butterfly valve and rear 4" 150# flange with remote operation butterfly valve
- Two (2) front 4" 150lb flanges with butterfly valves
- One (1) 22" side manway for access
