

# Steel Tank

# Double Wall

## Overview:

Store liquids in confidence with Rain for Rent's 16,000-gallon Steel Double Wall tanks. These storage tanks have a primary tank for storing liquids with a secondary tank for holding potential leaks. These can be used in environmentally sensitive areas where spills can be eliminated. The roof mounted manways remove the possibility of a potential leak point from sides of the tank. Permanently attached axles, for maximum maneuverability, allows this tank to be moved with ease on the jobsite. The staircase ensures proper protection for workers when checking fluid levels. The tank also offers optional epoxy coating, which offers chemical resistance and additional cleanliness for sensitive environmental applications.

## Features:

- Vapor Tight Tanks: rated to 4-oz/in<sup>2</sup> of pressure and zero vacuum
- V-drain floor with front and rear 4" 150-lb flanges
- OSHA Compliant Front & Rear Stairway
- Front 3" Fill Line
- Rear 4" 150-lb Flange for filling tank
- 2" SCH 40 coupling's for interstitial tank monitoring
- Two (2) 22" Roof Access manways
- Optional: Epoxy Coating - chemical resistance for a wide variety of chemical compatibility and keeps stored product within the tank cleaner

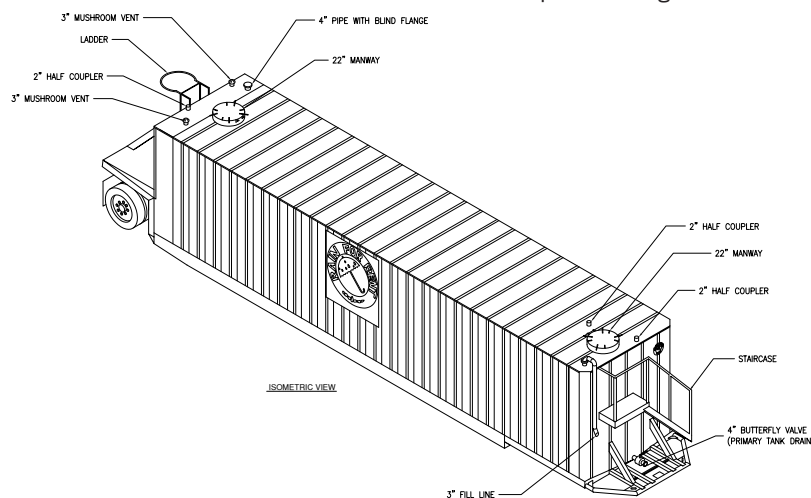

## Specs:

Material	Steel, Epoxy Coated (Option)
Capacity	16,000 gallons
Manways	Two 22" hatches
Dry weight	35,000-lbs.
Footprint (LxWxH):	555" x 96" x 119"

## Accessories:

- E-CONTAIN® Spillguards
- SolidGround® Traction Mats
- Radar Level Gauge
- Mechanical Level Gauge
- PipeStax®
