# Safety Products & Jobsite Protection

## Spillguards

Portable spill containment systems improve environmental safety by capturing liquids and preventing accidental spills. Ideal under tanks, pumps, pipelines, and valves.

Stop slips, trips, and falls with our durable pipe and hose ramps for pedestrian and vehicle traffic. Protects pipe/ hose up to 5" diameter (up to 7" pipe/hose when Clearance Plates are used).

## PipeStax®

Replace wood used for cribbing to provide stability and support to your pipe and hoses.

## SolidGround® Traction Mats

Provide a stable surface for increased traction on muddy or sandy soil and protect landscapes.

# Instrumentation

## Alarm Agent

Monitors pumps, tank levels, and filtration equipment 24/7. Offers real-time notifications.

## Audio Visual Tower

Onsite audio and visual alert for monitoring conditions such as equipment stopped or running, level, pressure and water quality parameters.

## Tank Level Gauge

Easy-to-read clock face allows for quick-glance tank level measurements up to 30 feet away.

## Variable Frequency Drive

Motor controller that drives an electric motor with adjustable speeds. Available in 50HP- 500HP.
