

# LIQUID HANDLING SOLUTIONS

Rain for Rent is a leading provider of temporary liquid handling solutions including pumps, tanks, filtration and spill containment.

Project delays can cripple a business. With decades of experience supporting the backbone of the construction industry, Rain for Rent has developed specialized construction services to become a contractor's partner on the jobsite.

Pumping, filtration, dewatering, spill protection, jobsite safety and protection help you avoid costly fines and delays.

# EXPERTISE YOU CAN TRUST

Rain for Rent is known for our ability to tackle complex challenges swiftly and cost effectively. Executives trust us with the big jobs when no one else can do them, and they choose us for the small jobs because we get them done right, the first time.

## **Bypass Pumping**

*Our pumps divert flows from small to extra large so you can focus on your project.*

## **Dewatering**

*Use our wellpoint, deepwell, or submersible pumps to keep groundwater off your site.*

## **Filtration**

*Meet your discharge requirements and avoid costly fines and delays with our variety of filtration options.*

## **NPDES Monitoring**

*Monitor, log, and control discharge on your construction site.*

## **Liquid Storage**

*Our diverse fleet of 21,000-gal tanks, poly tanks, or LakeTanks® help store your liquids no matter the volume.*

## **Dust Control**

*Keep dust levels low to prevent fines or air pollution using our dust suppression products.*

## **Spill Containment**

*Eliminate costly fines, meet regulations, and protect the environment with Spillguards under equipment.*

## **Wheel Wash**

*Wheel Wash systems are ideal on remediation or any jobsite needing efficient and cost effective track-out prevention.*

## **Jobsite Services**

*HDPE certified fusion technicians, pump watch, installation and removal crews help your job smoothly.*

## **Safety Products**

*Upgrade your jobsite standards with our variety of innovative and versatile safety products.*

**RampLox®**  
Modular and durable temporary pipe and hose ramps for pedestrian or vehicle traffic. Protects pipe and hose up to 5" in diameter. U.S. Patent # D725,748

**PipeStax®**  
Replace wood used for cribbing to provide stability and support to your pipe and hoses.

**Conline Wheel Wash Systems**  
Advanced spray pattern technology cleans truck tires quickly and thoroughly without distorting driver visibility, ensuring compliance with regulators and eliminating the risk of a shutdown.

**SolidGround® Traction Mats**  
Provide a stable surface for increased traction on muddy or sandy soil and protect landscapes.

THE SPECIFICATIONS CONTAINED IN THIS SHEET ARE OPERATING GUIDELINES AND ARE INTENDED TO BE GENERAL REPRESENTATIONS OF EQUIPMENT CAPABILITIES. ACTUAL PERFORMANCE WILL VARY BASED UPON SYSTEM APPLICATION, AGE OF EQUIPMENT, MANUFACTURER, AND OPERATION.
