

Instrumentation Portable Water Quality Monitor

Overview:

Rain for Rent's Portable Water Quality Monitoring System is a uniquely designed monitor to allow you to ensure you meet all NPDES discharge standards while keeping a data log of all measurements taken to keep you in compliance and help you avoid fines.

Features:

- 24 hour monitoring 7 days a week
- Cost savings – Reduce manpower required for monitoring
- Measures flow from 55 gpm to 1000 gpm
- Notifies onsite operators with a horn and strobe light if fluid has gone out of compliance
- Operates off 110 volts no special wiring required
- Compact design minimal intrusion on project location
- Completely contained & lockable
- 75 psi maximum
- Audible and visual alarms
- Measures fluid pH for a range of 0 to 14
- Measures turbidity from 1 to 4000 NTU
- Outputs 4-20 mA analog signals for pH, turbidity, and flow
- Can divert fluid automatically depending compliance levels

Specs:

Footprint	106" x 48" x 66"
Dry Weight	1,530 lbs.
Max Working Pressure	75 PSI
Powered	110 Volts

Accessories:

- Spillguard
- Hose and piping
- Filtration systems
- Alarm Agent
- Battery powered data loggers
- Can be retrofitted to operated LMI metering pumps
- Flocculent dosing

PUMPS • TANKS • FILTRATION • PIPE • SPILLGUARDS
