

LakeTank® - Save Money, Time and Space

Rain for Rent's LakeTank saves you money. A single LakeTank reduces the footprint compared to the number of frac tanks required based on fluid storage, which reduces setup time and reduces monthly rental costs.

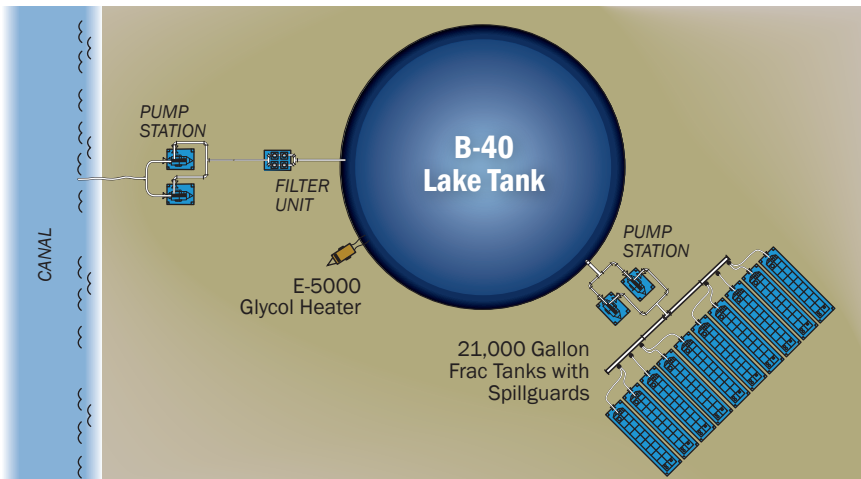

Safe installation with Mob-Assist™

Rain for Rent uses the Mob-Assist™ the most stable handling system on the market, to safely erect LakeTank panels. The use of Tele-handlers with the Mob-Assist eliminates the need for cranes and allows you to adjust the panels easily on any uneven surface, reducing safety hazards.

Detailed setup

Features

- Reduced number of trucks for delivery and pick-up
- Reduced labor costs during manifolding and operation
- Reduced site preparation and costs (smaller footprint)
- Easily erected tank in one day
- Reduced heating costs
- Tank design has engineered stamped drawings
- 12" suction for high volume pumping applications
- Netting and covers available

Applications

- Oil & Gas
- Environmental
- Paper-mills
- Solar
- Mining
- Hydrotesting

PUMPS • TANKS • FILTRATION • PIPE • SPILLGUARDS
